INTRODUCING THE EVOLV EXPRESS™

It's now possible to deter and prevent active shooters and bombers from entering your venue without sacrificing the visitor experience.

Evolv Express™ powered by the Evolv Cortex AI Software Platform delivers the only frictionless high-speed smart firearm and bomb detection system that **screens over 3600 of people per hour (60 people per minute) and gets smarter over time**. Evolv Express keeps high volume entrances flowing by reliably detecting guns and other weapons as visitors walk through at a natural pace.

ONLY EVOLV EXPRESS

- **10X Faster Throughput than traditional Checkpoints:** Screens over 3,600 people per hour. Visitors and employees walk side-by-side or in groups through multi-lane entrances up to eight feet wide.
- **Real-time Metallic Weapons Detection:** The Evolv Cortex AI Software Platform instantly distinguishes between threats such as a gun, and the things we normally carry like a cell phone.
- **Frictionless Screening:** Only with Evolv, no stopping is required. No emptying pockets or removing bags. Groups of people screened simultaneously; personal items do not require removal. Visitors simply walk through naturally.
- **Targeted Searches, Reducing the Burden on Security Teams:** Guards see a real-time image on a screen showing where the potential threat is on a person's body.
- **Smarter Over Time:** Stay ahead of the threat landscape. With the Evolv Cortex AI Software Platform, Express becomes more intelligent as new threat profiles are discovered.

“ We know the vast majority of our guests pose no threat. We want a system that identifies those few people who need a closer look.

HOW CUSTOMERS USE EVOLV EXPRESS

Organizations such as Lincoln Center, Oakland Airport, Gillette Stadium, and LL Bean use Evolv to prevent active shooters and bombers from entering their venues while providing a non-intrusive experience. Evolv Express can screen over 3,600 people per hour as they walk side-by-side through multi-lane entrances up to eight feet wide. It's designed for workplaces, sports stadiums, entertainment venues, tourist locations, hospitality venues, and places of worship that need to clear hundreds to thousands of people per hour.

HOW EVOLV EXPRESS IS UNIQUE

Evolv Express is powered by the Evolv Cortex AI Software Platform that combines advanced sensors, AI threat-classification, actionable entry analytics, and cloud services to help organizations protect both visitors and the visitor experience.

Trained using an extensive set of real-world threat data, the Evolv Threat AI Classifier continuously differentiates true threats from harmless objects in real time with dramatically fewer false positives than other systems. It becomes more intelligent as new threat profiles are discovered, helping Evolv customers stay ahead of the threat landscape.

Additionally, it shows security personnel exactly where weapons may be concealed on the person's body or in their bag, empowering guards to take precise, quick action.

Alerting and Action capabilities include:

- Image-Aided Alarm Resolution
- Visitor Analytics
- Flow Control
- SOC Integration

WHY EVOLV

Evolv reduces the burden on security teams and takes the hassle out of people screening at places of work, transportation hubs, sports stadiums, entertainment venues, hotels and conference centers, airports, houses of worship, and government agencies.

- **Evolv has screened over 25M people.**
- Evolv has prevented thousands of guns and other threats from entering venues.
- Only Evolv can screen over 3,600 people per hour, eliminating the long lines of legacy weapons screening such as metal detectors, wands, and pat downs.
- **With Evolv, no stopping is required, no emptying of bags or pockets** – people simply walk through the entrance.
