Goals

Eliminate ingress security wait times

Reduce secondary security screening checks without compromising security

Deliver unparalleled fan and guest ingress experience

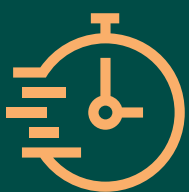

Create frictionless security screening for both primary and secondary checks

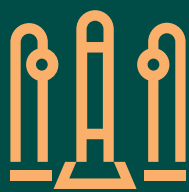

Deploy highly durable technology able to withstand environmental mishaps

Outcomes

Slashed

ingress times from 10 minutes to 1 minute

Elicited

positive responses from vocal critics of legacy metal detectors

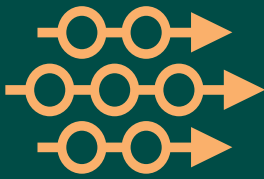

Reduced

security alarms for secondary screening by 40%

Achieved

a highly successful accelerated deployment for the first game of the season

Screened

thousands of fans and patrons in the 15-minute “rush” before start times

Expedited

secondary security screening

Eliminated

fans and guests getting stuck in security screening and missing game or event start time

Increased

the amount of time fans and guests spend in pre-game festivities and concessions
