

Bank of America Stadium Upgrade Stadium Security Experience with Evolv Express® Gen2 and Evolv eXpedite™

Snapshot of Organization

LOCATION

Charlotte, North Carolina

VENUE

Bank of America Stadium
(Carolina Panthers & Charlotte FC)

SOLUTIONS

- 19 Evolv Express® Gen2 systems
- 2 Evolv eXpedite™ systems
- MyEvolv Portal and mobile app
- Evolv Insights®

Goals

- Improve the speed of fan entry during high-volume surges
- Reduce unnecessary screening slowdowns
- Provide clearer information during secondary screening
- Modernize the screening experience
- Support large events without increasing staffing

“When we decided to renew it was an easy answer to continue with Evolv.”

– Bonnie Almond, Vice President of Venue Operations, Tepper Sports and Entertainment

Outcomes

Lasting Relationship

Built a lasting relationship with the team, built on consistent performance and Evolv support.

Weather Mobility

Ability to frequently move systems and hold up in inclement weather such as rain.

Screening Awareness

Greater secondary screening awareness with the Evolv tablet.

Real-Time Visibility

Real-time visibility and alerts with the MyEvolv Portal and mobile app.

High-Throughput Lanes

Lanes supported hundreds or thousands of guests at a walking pace.

Threats Tagged

Over their first 4 years of deployment, thousands of threat items were detected and tagged.

93% Clear Rate

7 in 100 people alert.*

*Based on Evolv Insights® data, averaged across all Gen 1 customer systems at fan entrances. Alert rate varies across sensitivity settings and environments, and can be influenced by factors including, but not limited to, clutter and operational and crowd flow. Secondary screening process is dependent venue policy.
