

# Spartanburg School District Five Builds a Lasting Partnership and a Layered Entry Process with Evolv Express® and Evolv eXpedite™

## Snapshot of Organization

### LOCATION

Duncan, South Carolina

### STUDENTS ENROLLED

~10,670

### SCHOOLS

1 High School, 6 Elementary Schools, 4 Middle Schools, 3 Specialized Academies

### SOLUTIONS

- 29 Evolv Express® Gen1 & Gen2 systems
- 4 Evolv eXpedite™ systems
- MyEvolv Portal and mobile app
- Evolv Insights®

## Goals

Strengthen the district's layered approach to safety

Reduce delays during morning arrival at busy entrances

Support non-security staff in confidently operating the system

Provide clear, predictable routines students could learn quickly

Maintain trust and transparency with families

"Parents want their children to take in as much information as they can... but what they really want more than anything is for their child to come home safely."

- Dr. Randall Gary, Superintendent, Spartanburg School District 5

## Outcomes

### 83.5% Ease of Use

83.5% of students said the process was easy or very easy to understand.\*

### 90%+ User Friendly

90.5% of school staff and 92.4% of contracted security rated the system as user friendly.\*

### 94.8% Wayfinding Clarity

94.8% said they always or most of the time knew where to walk and place belongings.\*

### ~3,100 Daily Throughput

Average daily volume at Byrnes High School is ~3,100.\*\*

### 57% Increased Safety

Around 57% of students agreed they felt safer knowing a weapons detection system was in place.\*\*

### 92.2% Positive Sentiment

92.2% of students felt neutral or positive about the system.\*

### 1.5% Alert Rate

The average alert rate based on over 336,000+ bags screened with Evolv eXpedite at Byrnes High School between October 2025 and March 2026 was 1.5%.\*\*

### 90.7% Clear Rate

Average clear rate across Express systems at Byrnes High School between 6-9 am for the 2026 school year so far is 90.7%.\*

\*Based on a survey conducted by Spartanburg School District 5 of 1,000+ students, and 25+ school staff, and 13 contracted security staff.

\*\*Based on Evolv Insights data collected from the systems in use. Clear rate as used here means the percentage of those entering through the Express systems that did not trigger an alert. Data pulled for peak ingress time (6am-9am). Alert rates may vary based on venue policies, sensitivity setting, clutter, and operational factors.
