

Wyoming Valley West School District Ensures Students Aren't Late to Class with the Help of Evolv

Snapshot of Organization

LOCATION	HEADQUARTERS	SOLUTIONS
 Kingston, Pennsylvania	Wyoming Valley West School District	4 Evolv Express® Single-lane Systems Evolv Cortex AI® Evolv Insights®

Goals

Eliminate long lines of students waiting outside schools to pass through security screening

Reduce nuisance alarm rate

Avoid class delays by getting students through security screening and to their first class on time

Streamline security screening at football games, graduation, and other community events

Foster a safer learning environment for students and teachers

Improve security screening effectiveness and accuracy

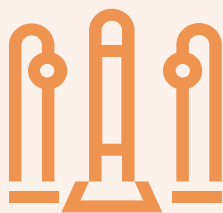

Facilitate more face-to-face interactions between teachers staffing security ingress and students

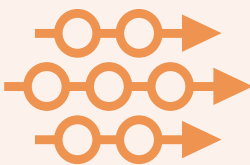

Avoid intrusive, lengthy secondary screening checks

Outcomes

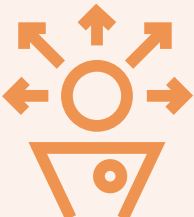

Reclaimed

Entrance footprint taken up by security systems by going from 6 metal detectors to 4 Express systems

Eliminated

Long security lines, enabling students to enter school and proceed to breakfast and/or first-period classes

Decreased

The number of teachers needed to staff security ingress by 33%

Eliminated

Intrusive secondary security screening process

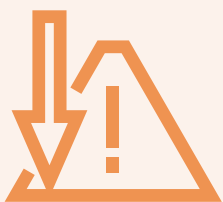

Screened

Over 1,000 people in approximately 30 minutes for graduation ceremony

Created

A safer environment for students, teachers, administrators, and staff

Reduced

Nearly 50% nuisance alarm rate connected to metal detectors
