

A Dignified, Layered Approach to School Security Screening

500+

Firearms Screened
Daily

~850K

Education Visitors
Screened/Day in
Q1 2025

1,300+

School Buildings
Using Evolv

Up to 1000

Screened in
15 Minutes for a
Dual-Lane System*

*Throughput is dependent upon venue sensitivity settings and resolution process.

Evolv's Solutions for Efficient School Screening

The **Evolv Safer Experience System™** offers connected security solutions designed to detect threats and empower staff to resolve them with confidence. It aims to deliver strong security with efficient screening experience for students and staff.

Evolv Express® uses advanced sensor technology and AI to distinguish between many potential threats and many everyday items, like phones and keys, designed to allow students and staff to move through screening at their natural walking pace.

- **Advanced Detection:** Consistently detects many concealed threats and distinguishes them from many common everyday items.*

*Based on internal testing and third-party testing commissioned by Evolv evaluating detection and false alarm rates on a variety of threats and benign items across sensitivity settings. Testing conducted in controlled environments. Detection and false alarm rates may vary based on sensitivity settings and venue policies.

- **Efficient Screening:** Can screen up to 1000 students in 15 minutes for a dual-lane system.*

*Throughput is dependent upon venue sensitivity settings and resolution process.

- **Directed Search:** Provides staff with visibility into who alerted and where to search, aiming to help reduce bias. Designed to help operators reduce search time and speed up resolution.

Evolv eXpedite™ complements Evolv Express® by autonomously identifying concealed threats in bags using AI and high-speed X-ray imaging technology.

- **High Speed X-Ray Imaging:** Designed to allow students to place their bags on the X-ray belt, walk through Evolv Express at their natural walking pace, and proceed swiftly upon clearance.
- **Automated Decision-making:** Staff do not have to interpret x-ray images or decide when to stop the conveyor belt.
- **Easy to Operate:** If a threat is detected, the green lights on eXpedite turn red and the conveyor belt automatically stops. Alerts can be sent to the Evolv Express® tablet providing the bag's image to highlight the bag containing the potential threat and further x-ray image detail to aid resolution.

Trusted
Nationwide

MyEvolv & Evolv Insights® is designed to provide security leaders with powerful web and mobile control over their Evolv systems along with visual dashboards, analytics, and regular automated reports on visitor flow, alarm statistics, and system performance. This helps strengthen security and drive operational efficiency.

- **Stay In Control:** See security activity and alerts from anywhere.
- **Prompt Adjustments:** Change scanner settings in real time without standing next to it.
- **Actionable Insights:** Access data and analytics to track trends and improve security performance.

Working to Create Safer Experiences for Millions Worldwide

3+ Billion People screened
in hundreds of venues and facilities worldwide

500+ firearms
screened daily

Used in over 1,300+
school buildings

~850,000 students/staff
screened daily

Reviews From Evolv Customers

"By greeting them with 'hello' and asking them 'how their morning is going,' we might **bring a smile to their face** regardless of what they've been dealing with at home."
– Valarian Couch, CIO, Champaign School District

"With the Express tablets, we **know exactly where the issue is located and can focus on that area**—whether a student's bag, shoulder, ankle, or waist." – Clifton Wilson, Security Manager, James Island Charter High School

"We're not buying a technology for today, but rather **a solution that improves over the lifespan of our investment.**"
– Mark Laurie, Superintendent, Niagara Falls City School District

"Our teachers and staff were **very happy** when we put Evolv in our schools. They know we're now checking everyone who enters a school. This **enables our teachers to focus on teaching rather than worrying about potential threats** coming onto the campuses." – Lyle Radford, Director of District Security, Hemet Unified School District (HUSD)

About Evolv

Evolv Technologies Holdings, Inc (NASDAQ: EVLV) is designed to transform human security to make a safer, faster, and better experience for the world's most iconic venues and companies as well as schools, hospitals, and public spaces, using industry leading artificial intelligence (AI)-powered screening and analytics. Its mission is to transform security to create a safer world to live, work, learn, and play. Evolv has digitally transformed the gateways in many places where people gather by enabling seamless integration combined with powerful analytics and insights. Evolv's advanced systems have scanned more than two billion people since 2019. Evolv has been awarded the U.S. Department of Homeland Security (DHS) SAFETY Act Designation as a Qualified Anti-Terrorism Technology (QATT) as well as the Security Industry Association (SIA) 2024 New Products and Solutions (NPS) Award in the Law Enforcement/Public Safety/Guarding Systems category, as well as Sport Business Journal's (SBJ) 2024 awards for "Best In Fan Experience Technology" and "Best In Sports Technology".
